

## AUB Roller Blind

The AUB roller blind is a practical and decorative, and at the same time, the cheapest means of protection against sunlight for users of roof windows: VELUX, FAKRO, RoofLITE or OptiLight. Three pairs of fastenings allow the blind to be fixed in different positions. The fabric is rolled up on a roller with the spring. It is equipped with an elegant aluminium fascia, which hides the roller.

Fastening – the blind can be stopped in three different positions

Aluminum fascia, which hides the roller.

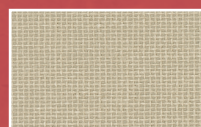

The offered product is available in two colour and finish versions:

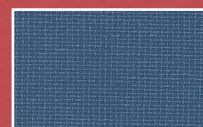

with transparent single-colour fabric:

AUB – 002 beige

AUB – 014 blue

### THE BASIS ADVANTAGES OF THIS PRODUCT INCLUDE:

- ◀ gradual reduction of incoming light
- ◀ reduction of excessive heat in the room
- ◀ protection of the interior against harmful UV radiation
- ◀ ease of use thanks to manual control and possibility to stop the blind in three different positions

with opaque fabric covered with white layer from the side of glazing:

AUB – 230 beige

AUB – 229 blue

# AUB Roller Blind

**2-year**  
warranty

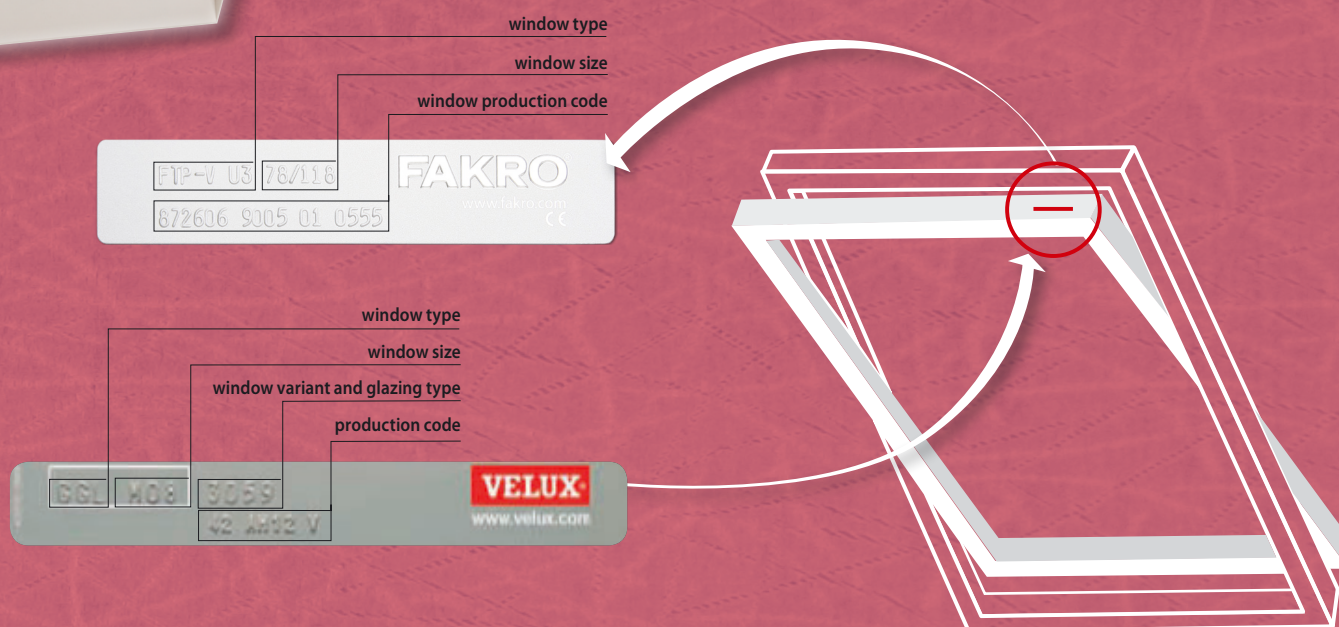

## SIMPLE CHOICE

The **AUB roller blind** is intended for VELUX roof windows – types: GGL, GPL, GZL, FAKRO roof windows of all types (except for FTT U5), RoofLITE AA and DP and OptiLight – versions B, VB.

In order to select accessories for a given roof window correctly, it is necessary to provide the type and size of the window. This information can be found on a data plate situated in the upper right corner of the sash.

## EASY INSTALLATION

The **AUB roller blind** is available in a manual version operated by means of the lower bar. For the blinds installed beyond direct reach of the user, there are available telescopic control rods for lowering/raising the fabric. The blind can be DIY installed following the fitting instructions included in every package.
